

Dice Music System

Let the dice decide how to set your Skoog up! If you don't have a physical dice don't fear- there are many different dice apps that you can get for free on the App Store, for example [Shake 'em Dice](#) or [Dice Roll- Free](#)

1. Roll your dice using a physical dice, or a dice app. The number that you land on will determine how you will set up your Skoog.

	Instrument	Key	Octave
1	Classic Synth	C Minor	Octave 5
2	Modulus	C Major	Octave 4
3	Ice	C Major	Octave 3
4	Moon synth	Bb Minor	Octave 5
5	Dubstep Bass	C Major	Octave 4
6	Karplus String	C Major	Octave 2

2. To select the instrument corresponding to your dice number in the Skoogmusic app:

- Click on the [instrument menu](#)
- Click on the icon that represents your instrument.

3. To set the key and octave, go to the scales menu and select either Major or Minor. In the Tonic/Key section, select the name for the key that corresponds to your dice number.

4. Roll your dice again to decide how long the performance is to be for:

	1	2	3	4	5	6
Performance Duration	1 minute	2 minutes	3 minutes	1 minute	2 minutes	3 minutes

Now that your Skoog is all set up according to our rules, it's time to play that cracking solo!

Dice Music System - Option 2

Let the dice decide what tune you will play on the Skoog! If you don't have a physical dice don't fear- there are many different dice apps that you can get for free on the App Store, for example Shake 'em Dice or Dice Roll- Free

1- Roll your dice using a physical dice, or one of the recommended online ones on the previous page. The number that you land on will determine which song you will play, use the table to the left to work out your song.

	Artist	Song Title
1	Jessie J	Price Tag
2	Ke\$ha	We R Who We R
3	Ke\$ha	Tik Tok
4	Deep Purple	Smoke on the Water
5	Noah & the Whale	5 Years Time
6	Kraftwerk	The Model

2. Select whatever instrument you like in the Skoogmusic app by clicking on the instrument menu, and clicking the icon that represents your instrument.

3. Set the key and octave by going to Spotify or iTunes and searching for your song. The key auto detection will choose the right key for the song.
