

Skoogmusic Loops Pack 1

Loops in different styles

In this pack

This support pack contains a bunch of loops with which you can improvise on the Skoog. The files in this pack are arranged by their musical style. Inside each of these style folders, you can find a folder of ready-mixed loops, and one of separate parts (with the exception of House World Music, which only has mixed loops).

You should find:

- This instruction manual
- **AFRICAN WORLD MUSIC** 103BPM
Key: A Minor | Tempo: 103 BPM
- **DANCE** 123BPM
Key: A Minor | Tempo: 123 BPM
- **FUNK** 90BPM
Key: A Minor | Tempo: 90 BPM
- **HIP HOP** 90BPM
Key: A Minor | Tempo: 90 BPM
- **HOUSE WORLD MUSIC** 120BPM
Key: A Minor | Tempo: 120 BPM
- **LATIN JAZZ** 96BPM
Key: A Minor | Tempo: 96 BPM

How to use this

The name of each of the sound file will tell you the key, the speed, and the style of the loop. For example:

[Am_90_HipHop_Bass.aif](#)

Am is the key of this loop - in this case it is in A Minor. If this is not present in the name, it indicates that it is a beat loop in no particular key.

90 is the tempo - the higher the number, the more fast-paced the track is (one beat per second = 60).

HipHop_Bass indicates the style of this loop. The name after the underscore is the main instrument in this loop - in this case the bass.

You can use these loops in GarageBand to create backing tracks or even live loop sets. Match the Key and tempo for the loops in GarageBand Settings (wrench icon).

Using With Skratch

You could also use the loops in this pack as samples which can then be assigned to each side of the Skoog in Skratch app. You could drop in different instruments in real time to create your own loop performance.

See the Skratch Technical guide in the Resources section of School of Skoog for a full guide on how to use Skratch.

Yo can load individual Samples into Skratch from 'Files' in iOS
